

I feel good about myself when I do good things

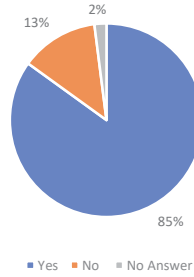

I like school

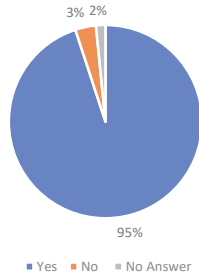

I like to learn new things

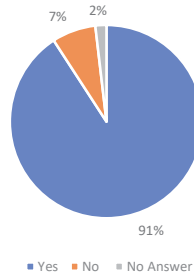

I take care of my things

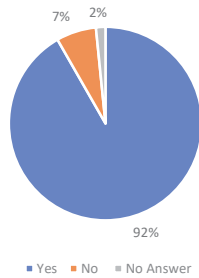

I feel good about myself when I do good things

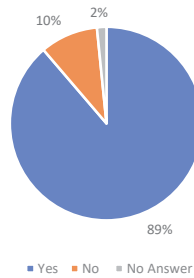

I like school

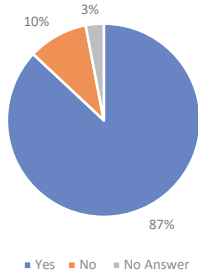

I like to learn new things

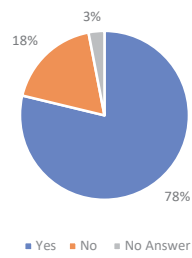

I take care of my things

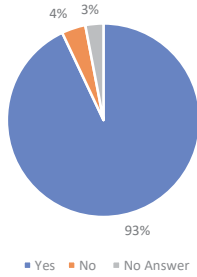

I keep promises I make to others

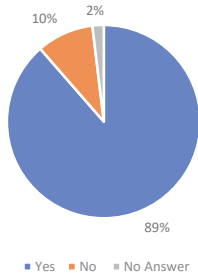

I tell my teacher when I have done something wrong

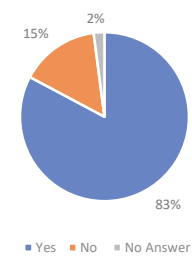

I try to make myself a better person

I keep promises I make to others

I tell my teacher when I have done something wrong

I try to make myself a better person
