

HIGH ABILITY POLICY: Inclusion Criteria **(9th , 10th , 11th , 12th grades)**

- An attempt will be made to keep enrollment for grades 10, 11, and 12 near the 20 student mark.
- Any student who has a semester grade below 80% will enter a probationary period. With lack of improvement at the end of the following semester, the student will be rescheduled into a regular English class.
- Immature behavior or poor attitude that results in disruption for the other students in the class may also be grounds for removal from the HA program.
- Students who are removed from a HA class may petition to re-enter the program for subsequent grades.
- Teachers of HA classes will ensure that their students are aware of the retention criteria.
- Teachers will initiate a student's removal from the course by first counseling the student and, second, informing the guidance department of the need for the schedule change.
- Failure to complete summer reading and writing requirements will be grounds for rescheduling a student into a regular English class at the beginning of the following year.
