

FOURTH GRADE GAZETTE

Gilbert Linkous Elementary School

March 16-20, 2020

Volume 7 Issue 27/Virtual Edition

Where Did The Children Go?

GLE Teachers will be working from 8 to 3 Monday—Friday. We will check email/Google Classroom/Padlet frequently throughout the day. This time will also be utilized for planning, grading, editing assignments, and additional teacher responsibilities. Please be patient, we will answer all questions as quickly and completely as possible. We are given new information and county directives continuously and want to be sure we are providing accurate information.

Please help your students to pace their online assignments. These are not intended to be completed in a day.

Reading Mrs. Hill

It is very important that students keep reading daily, at least 20 minutes. Books can be found online in places like Epic and StoryOnline. Epic has books of all levels, many that can be read aloud to students. Our Epic code is: pmz8581 If students cannot find their name in Epic, please let me know. My Google Classroom has assignments for a novel study, vocabulary, skill practice, and comprehension practice. Students should spend a little time each day on these assignments rather than quickly rushing through to complete them all.

In this issue.....

Read Aloud to Stuffed Animals Night

Movie Marathons

Kitchen Chemistry

Put a Bar of Ivory Soap in a Microwave

Living Room Fort Building

Disco Dance Party

Science: Ms. Mullins

We're starting SOL 4.5, Ecosystem Interactions. There will be videos, slide shows, and notebook/textbook activities posted on Google Classroom. If students find interesting things, books, or observations about our unit, please share appropriately.

Math: Mrs. Pleasant

Because policies for elementary assessment and grading are still fluid, Chapter 9 on Decimals May not have a formal assessment. I will include an end-of-unit assignment in Google Classroom Thursday morning. When your child feels they have re-viewed enough, they can complete it and begin the next assignments.

The next unit on Two and Three Dimensional Figures activities and assignments will be posted as a chapter unit. This will include IXL, written lessons, and project based learning assignments.

Thanks in advance for your help in keeping your kids up to date in math. If they have specific questions they can ask in Google Classroom or via Padlet.

Keep encouraging your children to read AR books and take tests during school hours when they are ready.

Virginia Studies: Ms. Mullins

VSDR # 9 from last week will not be counted as a grade due to some confusion on one of the questions. Students work through that question on Google Classroom. We will start VSDR #10 this week. We are wrapping up The New Nation, Chapter . Review all activities, notes and reread the chapter.
